

CZUR

CZUR M3000 Professional Book Scanner

Scanning without losing sheets

Solution of CMOS, 20Mps High Definition camera

MIPS CPU to ensure the speed of scanning

Outstanding features of smart software

- Scanning speed: 30 pages/min for single pages, 60 pages/min for book
- Cutting edge technology for flatten curves
- Core technology can flatten curves, remove fingerprints, purify background, correct position and crop automatically

Strive for quality and details

- Book cover baffle: To avoid the influence of book cover
 - Foot pedal : Free your hands and scan efficiently.
 - Working for 5000 hours without malfunction.

Brand: Czur

Model: M3000

Scan media: books, magazines, files, archives, tickets, artificates, objects and so on

Sensor type: HD COMS

Pixels: 20MPs

Resolution: 5248 x 3936

Max size: A3 format

Scan speed: 30-60 pages/min

Prepare time: 0

File format: JPG, PDF, TIFF, Word, Excel

USB port: 2.0 High speed

Light Source: Nature light + Auxiliary light

Os suport: XP/Win7/Win8/Win10/MAC

Sensor: 1 / 2.3" Lens

Video output: MJPG, YUV

CPU: 32-bit MIPS, 1Gb DDR3

Power supply: External adapter, input 100-240V, 50/60Hz, output 9V/2A

Function: flat curve, cut pages, remove fingerprint, purify background, automatic scanning, designated scanning, watermark,

Color mode: color, patterns, stamp, grayscale, B&W

Device dimension: 517 x 502 x 421 mm

Ddevice weight: 4.1 kg
